

PASTORAL / AG®

CYROLAB™ SPRAY-ON

BLOWFLY TREATMENT FOR SHEEP

ACTIVE CONSTITUENT: 60 g/L CYROMAZINE

Ready to use, up to 11 week protection against fly strike

For when you need short-term fly protection in a convenient ready to use spray on formulation. Contains the active ingredient Cyromazine, an insect growth regulator that breaks the lifecycle of the blowfly before they can damage the animal.

MONTHS SINCE SHEARING	TOTAL VOLUME / SHEEP (mL)	VOLUME PER TREATMENT BAND (mL)	NUMBER OF BANDS	NUMBER OF SHEEP TREATED PER 20 L	COMMENTS
FOR THE PREVENTION OF BODY STRIKE					1. Use only a spray-on applicator recommended by the manufacturer. 2. Ensure the applicator gun is clean. 3. Calibrate applicator gun using an accurate volume measure. 4. Ensure all areas to be protected are treated. 5. When preventing body strike ensure bands overlap along the midline – see diagram. 6. This product is not ideal for treating existing strikes. Use a diazinon knockdown product as a dressing for existing strikes. 7. Heavy rain following the application of this product could diminish the period of protection. 8. PASTORAL AG Cyrolab Spray-On is coloured for band identification. This scourable dye will disappear shortly after treatment.

Lambs less than 15 kg	34	17	2	588	
FOR THE PREVENTION OF POLL STRIKE					
Rams and sheep susceptible to poll strike should be treated. Apply at least 5 mL of PASTORAL AG Cyrolab Spray-On to the areas requiring protection, around the poll and horns.					

Cyrolab Spray-On is for the protection for up to eleven weeks against strike by cyromazine-susceptible strains of blowflies (*Lucilia cuprina*) when applied by spraying on sheep with long wool.

APPLICATOR

Pastoral Ag 30ml Variable Applicator - Spray Nozzle

WITHHOLDING PERIODS

MEAT: 7 days

ESI: 28 days

MILK: Do not use on sheep which are producing or may in future produce milk that may be used or processed for human consumption.

WOOL: Do not use less than 2 months before shearing or fibre collection.

STORAGE

KEEP OUT OF REACH OF CHILDREN.

Store below 30°C (room temperature). Store in original container, tightly closed in a dry, cool place. DO NOT store in direct sunlight. DO NOT re-use the container.

COMPARABLE PRODUCT

Vetrazin® Spray-On Sheep Blowfly Treatment

For use on sheep more than six weeks after shearing.

Reduced effectiveness is likely if used on sheep with lumpy wool.

When used on sheep with less than 6 weeks wool a reduced period of protection may result.

The product should not be applied during gusty or windy weather as spray drift will reduce the period of protection.

AVAILABLE SIZES
20 L
