

PASTORAL / AG®

MOXILABTM

POUR-ON

FOR CATTLE AND RED DEER

ACTIVE CONSTITUENT: 5 g/L MOXIDECTIN
Also contains : 150 g/L HYDROCARBON LIQUID (solvent)

For the treatment and control of moxidectin-sensitive internal and external parasites of cattle.

Moxilab Cattle Pour-On for Cattle and Red Deer contains the highly effective active ingredient moxidectin. Trusted by Aussie farmers for over 20 years, the dung beetle friendly formulation requires just one easy pour-on application to control all major internal and external parasites. No other pour-on provides longer acting control of more parasites of cattle (see label for details).

Moxilab Pour-On for Cattle is an endectocide with efficacy in treating and controlling internal and external parasites in cattle.

Moxilab Pour-On for Cattle is effective in the treatment and control of the following parasites affecting cattle: Gastrointestinal (adult and larval (L4) nematodes) - Barber's Pole Worm - Small Brown Stomach Worm including inhibited larvae - Stomach Hair Worm - Black Scour Worm - Small Intestinal Worm - Thin Necked Intestinal Worm - Hookworm - Nodule Worm - Whip Worm Lungworm - Cattle Tick - Lice - Mange Mites.

Moxilab Pour-On for Cattle is effective in the treatment and aid in control of: Buffalo Fly.

Cattle Tick Control: Moxilab Pour-On for Cattle is effective for treatment and control of cattle tick on cattle, including strains resistant to organophosphates, synthetic pyrethroids and amidines. The persistent activity of Moxilab

Pour-On for Cattle prevents the development of viable cattle tick for 21 days after treatment. For strategic programs treatment at 21 day intervals is recommended. Some engorged females continue to drop for up to three days after the first treatment, and these may lay some viable eggs. This should be taken into account when planning a strategic dipping program.

Buffalo Fly Control: The persistent activity of Moxilab Pour-On for Cattle can be used as an aid in the control of buffalo fly for up to 14 days after treatment.

WITHHOLDING PERIODS

MEAT: ZERO (0) days.

MILK: ZERO (0) days.

ESI: ZERO (0) days.

APPLICATOR

Young stock: Pastoral Ag 30ml Variable Applicator
- Pour-On Nozzle. Stock over 300kg: 65ml Pour-On Applicator

STORAGE

Store below 30C (room temperature). Protect from light.
