

PASTORAL / AG[®]

EPRINOLAB[™]

POUR-ON FOR BEEF AND DAIRY CATTLE

ACTIVE CONSTITUENT: 5 mg/mL EPRINOMECTIN

Pastoral Ag Eprinolab Pour-On for Beef and Dairy Cattle is for the treatment and control of internal and external parasites of beef and dairy cattle and internal parasites of deer.

Containing Eprinomectin, a highly potent endectocide, Pastoral Ag Eprinolab has the flexibility of Nil meat and Nil milk withholding periods while providing broad-spectrum control of internal and external parasites.

Eprinolab provides persistent activity against many of the species of cattle gastro intestinal parasites that affect the health and performance of your herd (see label for complete list).

Eprinolab is in a user-friendly formulation that is kind on guns, and has a standard dose rate of 1ml/10kg. For the treatment and control of gastrointestinal roundworms (including inhibited immature *Ostertagia ostertagi*) and lungworm in cattle. For sucking and biting lice, sarcoptic and chorioptic mange mites, and buffalo fly in beef and dairy cattle. Eprinolab aids in control of cattle tick (*Rhipicephalus microplus*). For the treatment and control of gastrointestinal roundworms and lungworm in deer.
