# MILKFIX™

## LAMB

### PREMIUM MULTI-SPECIES MILK REPLACER

Milkfix Lamb Premium Multi-Species Milk Replacer has been developed to achieve maximum growth rates for your lamb or kid. Milkfix Lamb contains essential vitamins and minerals required for early growth and development. Milkfix Lamb does not contain coccidiostat, making it safe for multiple species. Can be fed to young animals such as lambs, goat kids, foals, fawns, piglets, puppies and orla.

#### MIXING INSTRUCTIONS

Dissolve the required amount of Milkfix Lamb Premium Multi-Species Milk Replacer to half the required volume of fresh, clean warm (40°C) water. Avoid hard water. Mix to a creamy smooth consistency and add further warm water to make up the required amount. Feed at body temperature (38-40°C).

Mix only when required. Keep bag closed when not in use.

Feed after a good intake of colostrum has been achieved.

Ensure that calves have access to hay and calf feed.

Keep buckets, bottles and other equipment clean.

#### DAILY LAMB FEEDING GUIDE

Mixing Rate: 160 – 200 g/L.

Lambs should receive ~200 mL/kg (20%) of its body weight in milk daily. Smaller animals may require more feeds of lower volume in a day.

AGE (DAYS)	MIXING RATE	FEEDS PER DAY	VOLUME PER FEED (mL)	TOTAL MILK INTAKE PER DAY (mL)
1	COLOSTRUM - Feed colostrum at 15-20% of body weight in the first 24 hours spread over 2-3 feeds, with at least one feed within the first 6 hours after birth.			
2 - 4	160 g/L	4	125	500
5 - 7		4	175	700
8 - 10		4	250	1,000
11 - 13	200 g/L	3	400	1,200
14 - 21		2	600	1,200
22 - 42		2	700	1,400
43 - 49		2	500	1,000
Weaning		1	500	500

Wean lambs from 6 weeks of age when eating sufficient solid food and forage. Weaning should take place over 7 days.

#### DAILY KID FEEDING GUIDE

Mixing Rate: 160 – 200 g/L.

AGE (DAYS)	MIXING RATE	FEEDS PER DAY	VOLUME PER FEED (ML)	TOTAL MILK INTAKE PER DAY (ML)
1	COLOSTRUM - Feed colostrum at 15-20% of body weight in the first 24 hours spread over 2-3 feeds, with at least one feed within the first 6 hours after birth.			
2 - 4	160 g/L	3	200	600
5 - 7		3	250	750
8 - 10		3	300	900
11 - 13	200 g/L	3	400	1200
14 - 21		2	600	1200
22 - 42		2	800	1600
43 - 49		2	600	1200
Weaning		1	600	600
